*"Lori and Maryssa were absolutely incredible and made me look perfect on my wedding day! They did a run through with me before the big day to make sure we were all on the same page. They traveled down to Lewes, DE and were the epitome of professional—on time, flexible, prepared, and had a great attitude—they made it fun! Most importantly, their work was gorgeous and everyone was really happy (especially me). My big day was really windy and our hair definitely held up for pictures, ceremony, etc. Lori even stayed to help put on my veil and gave my mom and Maid of Honor a quick tutorial on how to take it out for the reception. It was such a luxury to not have to worry about our hair and makeup because for years Lori's work has spoken for itself. I live in Manhattan and won't get my hair done anywhere else—I wait until I'm in town to go to Fusion!" - Stephanie Selekmán-Singh*

*"When I got engaged and started planning wedding details, there was absolutely no doubt in my mind that Lori Zaiss would be styling my hair. There is only one person I would ever trust with such an important event, despite the fact that she was quite literally a thousand miles away! Distance between wedding vendors and couples can create certain challenges, but Lori made the entire process extremely easy and stress-free. Beforehand, I assembled pictures of each girl and her corresponding desired hairstyle for the wedding. Lori was able to perfectly capture each style from the pictures, even the extremely complicated ones. She ran perfectly on time for all seven of us – one bride, four bridesmaids, a mother and a mother-in-law. The end result was incredible! I cannot tell you how many compliments every single one of us received on our beautiful hairstyles, both the day of and for weeks to come! Lori truly surpassed any expectation and vision I could have had for my wedding day – right down to being my shadow for bobby pin touch ups as needed! We love Lori, and we are so grateful that she was able to be a part of our wedding day." - Kelly Pupello*
